

Mojaloop Deployment

Infrastructure Patterns

Mojaloop dev, demo deployment options

Mojaloop core-test harness:

1. Deploying Mojaloop core services for demo, dev, qa purposes
2. Deploy core services alone without supporting services and security
3. Docker compose
4. FX, Monitoring, Finance Portal coming (PR open)
5. Repo: <https://github.com/mojaloop/ml-core-test-harness>
6. Demo

Mojaloop deployment options: Helm

Mojaloop Helm install

1. Deploying Mojaloop core services for dev, qa, testing purposes
2. Deploy core services alone without supporting services and security
3. Finance Portal, other features can be deployed separately
4. Guide: <https://docs.mojaloop.io/technical/deployment-guide>
5. Demo
